

Symposium: Research in the Field of Winemaking under Climate Change

Dec 12th, Tanngrisner, floor5, VHC, Ultuna

| Start | Speaker | Title |
|-------|--|--|
| 09:00 | Erik Bongcam-Rudloff | The ProGriCC project and SLU |
| 09:15 | Salme Timmusk | Climate resilience: a microbiological perspective on sustainable agriculture |
| 09:45 | Marco Moretto | Grapedia: The Grapevine Genomics Encyclopedia |
| 10:15 | Coffee | |
| 10:45 | Manana Kevlishvili | Impact of global climate change on the soil physical and chemical composition |
| 11:15 | Levan Shavadze | The potential of using rootstock vines against climate change and modern agrotechnology of rootstock vines |
| 12:00 | Lunch | |
| 13:30 | Hans Binder | Genomic richness of grapevine in the Caucasus - a bioinformatics perspective |
| 14:00 | Nelson Manzanares Humberto Gonzalez | Vineyard and Wine Production in Northeastern Mexico: Challenges, Opportunities and Climate Change |
| 14:30 | Coffee | |
| 15:00 | Tomas Konecny | vitisSOM browser - navigate the omics landscapes of vine |
| 15:30 | Samuel Flores | Proposed application of bioinformatics to grapes and climate change |
| 16:00 | End | |
